Instructions for Submitting Questions During the Online Channeling Event

Welcome, and thank you for attending the online channeling event! To ensure everything runs smoothly, please follow these instructions for submitting your questions and participating in the session.

Event Structure:

- A monologue by the channeled being on the given topic (20-45 minutes).
- Followed by a short break and then answering of questions from participants (30-40 minutes).
- Then a method/technique/meditation will be shared by the channeled being in keeping with the topic (5-10 minute).

---

1. Joining the Event

- Please join the event **on time** or no later than **5 minutes after the start time**.
- Once the channeling begins, late entries will not be allowed because my eyes will be closed and I will be channeling.
- Make sure you have **Zoom** installed on your device and tested at least 10 minutes before the event begins to avoid technical problems.

---

2. Submitting Your Questions

- Use this form to submit your questions to the channeled being. Questions are only accepted through this form as participants will be muted in the session.
- You can submit **multiple questions on any topic** using the same form at any time, either before the session starts or while I am channeling.
- **Please keep your questions SHORT (1-3 sentences)!** You can resubmit more questions using the same form instead of putting all your questions in one go. I cannot remember long paragraphs of text in the channeling state and only the portion I

remember will be answered. Rest of the portion will go unanswered. So please stick to short & few sentences only.

- If you don't your name to be read out for your question, just write 'Anonymous' as your name in the form.
- Please do not put the questions in Zoom Chat. Those will be ignored. Please submit your questions only in the given form above.

---

3. How Your Questions Are Addressed

- Your questions will be read aloud by a text-to-speech software during the session. I will channel the answers during the session when the monologue ends.
- Please note that the text-to-speech software does **not update questions in real time** while I am channeling.
    - o I will channel and answer the questions already submitted.
    - o After answering those, I will **pause channeling**, update the new questions, and then channel again to address the remaining ones.

Thank you for your cooperation and understanding. These guidelines are designed to create a seamless and meaningful experience for everyone. If you have any further questions about the process, feel free to ask before the event begins or email them to support@abetterliving.co!
